

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

DRCS will identify students for inclusion in summer programming based on an assessment of performance and academic achievement following the return from COVID_19 remote learning. All DRCS students will be STEP tested (standardized measure of reading achievement) or

MAP tested (standardized measure of MATH & READING achievement) over the course of the school year to assess growth and progress towards grade level skills. Students that show academic performance gaps at the close of the school year will be invited to participate in summer programming. Additionally, students that qualify for Extended School Year services based on their IEP will be invited to participate in Summer Programming.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	100	--Literacy intervention during summer school programming= Increased literacy performance in advance of upcoming school year--Math intervention during summer school programming = Increased Math performance in advance of upcoming school year

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

DRCS students attending summer programming will engage in instruction using a combination of evidence based online platforms and in person, evidence based instruction. All resources will support/align to during school year Eureka Math and Rooted in Reading/Wit and Wisdom curriculum. Instruction will be differentiated based on student performance level.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
10	Internal Provider	Summer School Teacher
1	Internal Provider	Summer School Coordinator

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
STEP Testing	Beginning and end of summer program	Students engaged in summer programming will show increases in STEP levels through summer and summer learning loss will be reduced/eliminated
MAP Testing	Beginning and end of summer program	Students engaged in summer programming will show increases in MAP levels through summer and summer learning loss will be reduced/eliminated
SPED Progress Monitoring Per IEP Requirements Students engaged in afterschool programming will show progress towards meeting annual IEP goals.	Per IEP Requirements	Students engaged in afterschool programming will show progress towards meeting annual IEP goals.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
--------------------------------------	-------------------------	-------------------------

6. How will the LEA engage families in the summer school program?

DRCS will utilize targeted outreach to invite students to attend summer programming. Further, teachers will be expected to maintain ongoing communication with families regarding student progress, experience, etc. DRCS will also include family friendly programming/events during summer programs.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$28,802.00
Allocation
 \$28,802.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	600 - Supplies	\$12,802.00	Summer School Curriculum resources for 2 years
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$16,000.00	Summer school staff salaries and stipends for 2 years
		\$28,802.00	

Section: Budget - Support and Non-Instructional Expenditures

Support and Non-Instructional Expenditures

Budget
\$28,802.00
